PREFACE

WELCOME TO HOGGI,

from the 26th to the 29th of September 2018 it's that time again.
The „Rehacare international“ opens its doors and we look forward to the personal communication with parents, therapists and distributors according to our guiding principle: „Partnering together to mobilise kids“

On more than 100 square meters of exhibition space we present the current HOGGI product line 2018.

We are especially pleased to introduce you to 5 new products exclusively. **BINGO Evolution Mini, DURO & DURO Cross, CESA** and **BASIC** are the new products, completing our product categories rehab-pushchairs, rehab-buggies and wheelchairs.

But also product developments as well as new options and accessories of different HOGGI products we proudly present to you.
At www.hoggi.de the HOGGI homepage presents itself fundamentally modernized after a technical, optical and content regarding revision. In addition to a modern design the focus of the redesign was mainly about adapting the content to the needs of our target groups.

Information about pricing in 2019 and upcoming dates can also be found in this publication.

Finally, I wish a pleasant and informative visit to the fair.

Best regards

Gregor Horacek
(Developer and managing director HOGGI GmbH)
